

## Lakeland Care District Provider Directory

This directory provides a list of contracted providers for the Lakeland Care District (LCD) which serves Brown, Calumet, Door, Fond du Lac, Kewaunee, Manitowoc, Marinette, Menominee, Oconto, Outagamie, Shawano, Waupaca and Winnebago counties.

The LCD provider directory is updated at a minimum of every 45 days. Please visit our website at [www.lakelandcaredistrict.org](http://www.lakelandcaredistrict.org) for an updated listing of our current providers or contact your Interdisciplinary (IDT) Staff. Please consult with your IDT staff prior to calling the provider.

**Note:**

The providers listed in this directory may change for any reason. Therefore this does not guarantee that the provider is currently in the network or currently accepting new members. Within the Directory, there are also providers that have limitations for accepting new members or capacity. It is important for members to work with their IDT staff.

**Website:** [www.lakelandcaredistrict.org](http://www.lakelandcaredistrict.org)

If you have special needs, this document may be available in other formats. Please notify your Care Management Team if you require assistance with this Provider Directory.

Providers listed in this Directory are under contract with the Lakeland Care District to provide services to Family Care members. Some providers may not be accepting new members. For specific provider availability, please consult with your Interdisciplinary Team (IDT).

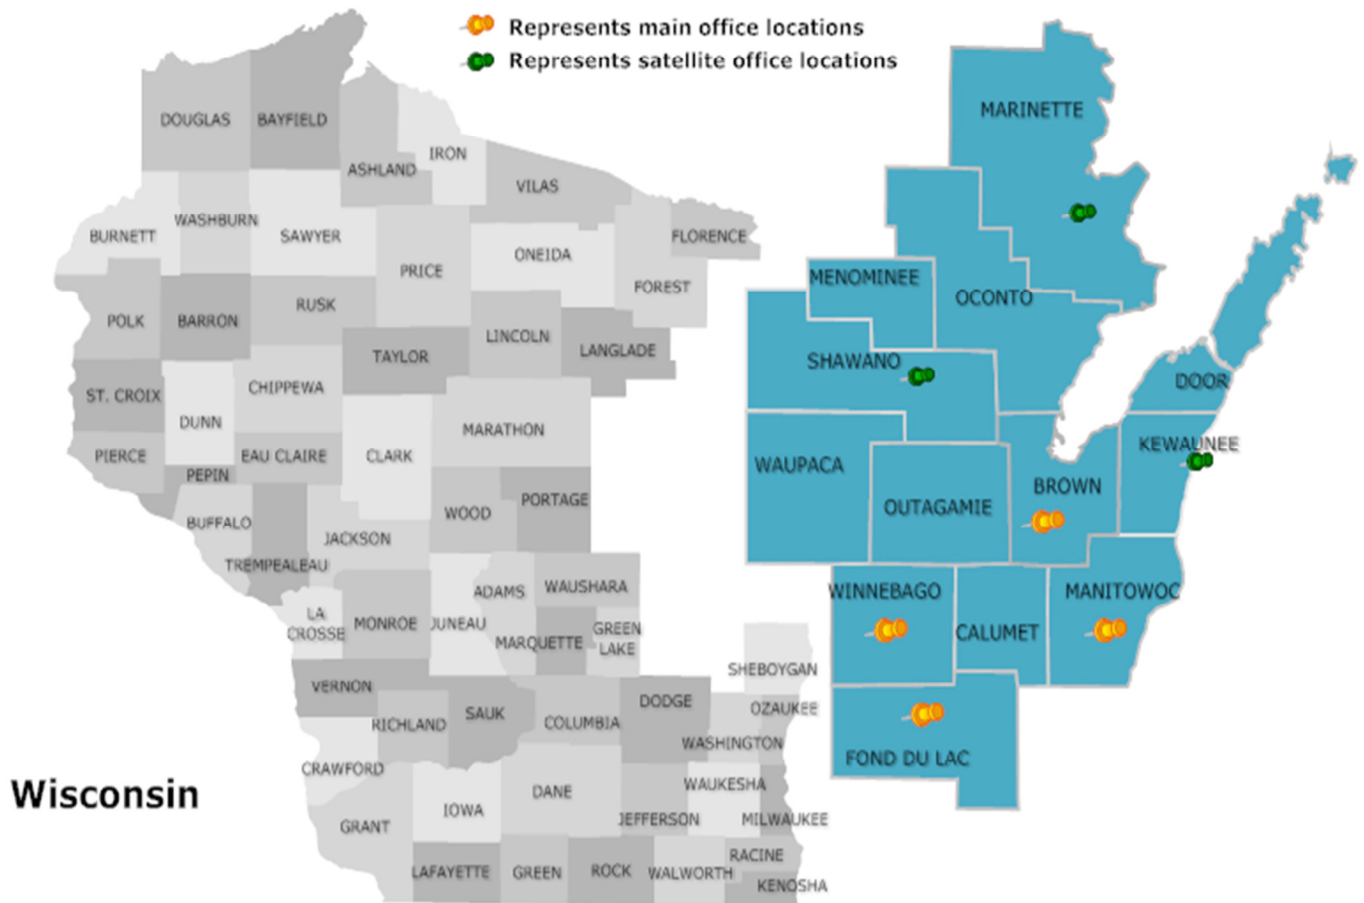

Please call your IDT staff PRIOR TO obtaining services from providers listed in this Directory.

# Service Area Map & Provider Adequacy

The LCD serves the counties of Brown, Calumet, Door, Fond du Lac, Kewaunee, Manitowoc, Marinette, Menominee, Oconto, Outagamie, Shawano, Waupaca, and Winnebago. An extensive provider network allows members to receive care from any of our contracted service providers within these areas.

It is the responsibility of the LCD's Provider Network Department to ensure that members will have prompt access to high quality services through our provider network.

## Lakeland Care District Service Areas

\*This directory is reviewed annually by the State Department of Health Services (DHS) to certify its adequacy.

# Family Care Benefit Package – Nursing Home Level

*The Provider Network Directory is not an all-inclusive list of services to choose from nor is every member of the LCD entitled to all the services listed. The Directory offers a listing of contracted providers that may be explored to meet your needs and personal experience outcomes.*

## How to Use this Directory

This directory lists all of the providers currently under contract to provide service for the members of the Lakeland Care District. The directory is arranged in alphabetical order by service categories, which are listed at the top of each page and defined by the Department of Health Services (DHS). Please review this provider directory and keep it in a convenient location for your reference. By involving your IDT Staff in choosing a provider, your IDT Staff can coordinate the best way meet your needs and long term care outcomes.

The directory also contains the following information:

- Provider name, phone number, city, and state
- For residential providers with multiple locations, the name of the facility may also be listed
- Handicap accessibility
- Hours of service
- Special accommodations
- Indication of possible provider limitations (Refer to IDT Staff for additional information)

Note:

In some cases the address listed in this directory is the provider's home office, which may be different from the location where you would receive services.

## Adaptive Aids

**Adaptive aids are controls or appliances that enable members to increase their abilities to perform activities of daily living or control the environment in which they live (including patient lifts, control switches, etc.). Adaptive aids are also services and material benefits that enable members to access, participate and function in their community. These include the purchase of vehicle modifications (such as van lifts, hand controls, equipment modifications, etc. that allow the vehicle to be used by the member to access the community) or those costs associated with the maintenance of these items. The service may also include the initial purchase of a service dog and routine veterinary costs for a service dog. Excludes food and non-routine veterinary care for service dogs based on DHS guidelines. Providers of this service must be Medicaid certified providers. Electronic devices must meet UL or FCC standards. For service dogs, provider must be a reputable provider with experience providing and training service dogs.**

## Adult Day Care Services

**Adult day care services are the provision of services for part of a day in a nonresidential group setting to adults who need an enriched social or health-supportive experience or who need assistance with activities of daily living, supervision and/or protection. Services may include personal care and supervision, light meals, medical care, and transportation to and from the day care site. Transportation between the member's place of residence and the adult day care center may be provided as a component of adult day care services. The cost of this transportation is included in the rate paid to providers of adult day care services. Meals provided as part of adult day care may not constitute a "full nutritional regimen" (3 meals per day). For providers of this service, Wis. Stats.Chapter 49.45 applies.**

## Adult Family Homes 1-2 Beds

**Adult family homes of 1-2 beds are places in which the operator provides care, treatment, support, or services above the level of room and board to up to two adults. Services typically include supportive home care, personal care and supervision. Services may also include transportation and recreational/social activities, behavior and social supports, daily living skills training and transportation if provided by the operator or designee of the operator. It includes homes which are the primary domicile of the operator or homes which are controlled and operated by a third party that hires staff to provide support and services.**

**Adult family home services also include coordination with other services received by the participant and providers, including health care services, vocational or day services. Services may also include the provision of other waiver services as specified in the individual contract between the MCO and residential provider. Waiver funds may not be used to pay for the cost of room and board.**

## Adult Family Homes 3-4 Beds

**Adult family homes of 3-4 beds are licensed under DHS 88 of the Wisconsin Administrative code and are places where 3-4 adults who are not related to the licensee reside, receive care, treatment or services above the level of room and board, and may include up to seven hours per week of nursing care per resident. Services typically include supportive home care, personal care and supervision. Other services provided may include behavior and social supports, daily living skills training and transportation performed by the operator or designee of the operator. This service type also includes homes of 3-4 beds, specified under s. 50.01 (1)(a) of the Wisconsin Statutes, which are licensed as a foster home under s. 48.62 of the Wisconsin Statutes and certified by a certifying agency as defined under DHS 82 of the Wisconsin Administrative Code. The latter are owner-occupied homes for persons with intellectual disabilities who are aging out of foster care. This category of homes permits such persons to remain in the same home, promoting continuity of care. Waiver funds may not be used to pay for the cost of room and board.**

## Care/Case Management Services

**Care/case management services (sometimes called support and service coordination) are provided by an interdisciplinary care management team (IDT). The member is the center of the IDT. The IDT consists of, at minimum, a registered nurse and a social services coordinator, and may also include other professionals as appropriate to the needs of the member, as well as family or other informal supports requested by the member. The IDT initiates and oversees the initial comprehensive assessment of needs and reassessment process, the results of which are used in developing the individual's member-centered plan of care. The IDT identifies the member's preferred outcomes and the services needed to achieve those outcomes and monitors the member's health and welfare, the delivery of services, and progress in achieving identified outcomes. The IDT also carries out activities that help members and their families to identify other service needs and gain access to medical, social, rehabilitation, vocational, educational and other services identified.**

## Community Based Residential Facility (CBRF) more than 8 beds

**Community-based residential facility (CBRF) is a place where 5 or more adults, and in cases of persons with an intellectual disability up to 8 adults, who are not related to the operator or administrator reside and receive care, treatment, support, supervision and training. Services may include supportive home care, personal care, supervision, behavior and social supports, daily living skills training, transportation and up to three hours per week of nursing care per resident. Waiver funds may not be used to pay for the cost of room and board.**

## Consultative Clinical and Therapeutic Services for Caregivers

**The purpose of consultative services is to improve the ability of unpaid caregivers and paid direct support staff to carry out therapeutic interventions.**

**Clinical and therapeutic services assist unpaid caregivers and/or paid support staff in carrying out the member's treatment/support plans, are not covered by the Medicaid State Plan and are necessary to improve the member's independence and inclusion in their community.**

**The service includes assessments, development of home treatment plans, support plans, intervention plans, training and technical assistance to carry out the plans and monitoring of the member and the caregiver/staff in the implementation of the plans.**

**This service includes the provision of training for caregivers/staff that are or will be serving members with complex needs (beyond routine care). For example, when an individual with complex needs is relocating from one of the State**

**Centers for the Intellectually Disabled, this service could be used to train caregivers/staff on the behavioral support plans necessary for community integration.**

**This service may also include consultation with service providers and potential providers to identify providers that can meet the unique needs of the member and to identify additional supports necessary for caregivers to perform therapeutic interventions.**

**Excludes training in member self-advocacy or caregiver advocacy on behalf of a member, which are covered under consumer education and training.**

## Consumer Education and Training

**Consumer education and training services are designed to help a person with a disability develop self-advocacy skills, support self-determination, exercise civil rights and acquire skills needed to exercise control and responsibility over other support services; includes education and training for members, their caregivers and/or legal representatives that is directly related to building or acquiring such skills. Managed care organizations assure that information about educational and/or training opportunities is available to members and their caregivers and legal representatives. Covered expenses may include enrollment fees, books and other educational materials and transportation related to participation in training courses, conferences and other similar events. Excludes educationally related services available under Individuals with Disabilities Education Act (IDEA) (20 U.S.C.1401 et seq) or other relevant funding sources. Excludes education/training costs exceeding \$2500 per participant annually. Excludes payment for hotel and meal expenses while members or their legal representatives attend allowable training/education events.**

## Counseling and Therapeutic Services

**Counseling and therapeutic services is the provision of professional, treatment-oriented services to address a member's identified needs for personal, social, physical, medical, behavioral, emotional, cognitive, mental or substance abuse disorders.**

**Counseling and therapeutic services may include assistance in adjusting to aging and/or disabilities including understanding capabilities and limitations. Services may also include assistance with interpersonal relationships, recreational therapies, music therapy, art therapy, nutritional counseling, medical counseling, weight counseling and grief counseling.**

**Counseling and therapeutic services must meet clearly defined outcomes, be proven effective for the member's condition or outcome and be cost effective.**

**Any alternative therapies and treatments must meet DHS requirements. Excludes inpatient services, services provided by a physician and services covered by the Medicare program (except for payment of any Medicare cost share).**

## Daily Living Skills Training

**Daily living skills training is the provision of education and skill development to teach members the skills involved in performing activities of daily living, including skills intended to increase the member's independence and participation in community life. It may include teaching money management, home care maintenance, food preparation, mobility training, self-care skills and the skills necessary for accessing and using community resources. Daily living skills training may involve training the member or the natural support person to assist the member.**

## Day Habilitation Services

**Day habilitation services are the provision of regularly scheduled activities in a non-residential setting, separate from the member's private residence or other residential living arrangement, such as assistance with acquisition, retention, or improvement in self-help, socialization and adaptive skills that enhance social development and develop skills in performing activities of daily living and full community citizenship. Activities and environments are designed to foster the acquisition of skills, building positive social behavior and interpersonal competence, greater independence and personal choice.**

**Day habilitation services focus on enabling the member to attain or maintain his or her maximum potential and shall be coordinated with any needed therapies in the member's person-centered services and support plan, such as physical, occupational, or speech therapy. For members with degenerative conditions, day habilitation activities may include training and supports to maintain skills and functioning and to prevent or slow regression, rather than acquiring new skills or improving existing skills. Day habilitation services may also be used to provide retirement activities. As some members get older, they may no longer desire to work and may need supports to assist them in meaningful retirement activities in their communities.**

**Day habilitation may be furnished in a variety of settings in the community except for the member's residence. Day habilitation services are not limited to fixed-site facilities but may take place in stores, restaurants, libraries, parks, recreational facilities, community centers or any other place in the community.**

**Transportation may be provided between a member's place of residence and the site of day habilitation activities or between habilitation activities sites (in cases where the member receives habilitation services in more than one place) as a component of day habilitation activities. Meals provided as part of these services shall not constitute a "full nutritional regimen" (3 meals per day). Personal care/assistance may be a component of day habilitation services as necessary to meet the need of members, but may not comprise the entirety of the service. Members who receive day habilitation services may also receive educational, supported employment and prevocational services. Day habilitation may not provide for the**

**payment of services that are vocational in nature (i.e., for the primary purpose of producing goods or performing services).**

## Environmental Accessibility Adaptations (Home Modifications)

**Environmental accessibility adaptations (home modifications) are the provision of services and items to assess the need for, arrange for and provide modifications and or improvements to a member's living quarters in order to provide accessibility or increase safety.**

**Modifications may provide for safe access to and within the home, reduce the risk of injury, facilitate independence and self-reliance, allow the individual to perform more ADLs or IADLs with less assistance and decrease reliance on paid staff. Home modifications may include materials and services such as ramps, stair lifts, wheelchair lifts or other mechanical devices to lift persons with impaired mobility from one vertical level to another; kitchen/bathroom modifications; specialized accessibility/safety**

**adaptations; and voice-activated, light-activated, motion-activated and electronic devices that increase the member's self-reliance and capacity to function independently.**

**Home modifications may include modifications that add to the square footage of the residence if the modifications are to assure the health, safety or independence of the person and prevents institutionalization and the modification is the most cost effective means of meeting the accessibility or safety need compared to other more expensive options. Contractors must comply with local and/or state housing and building codes.**

## Financial Management Services / Rep Payee

**Financial management services are services to assist members and their families to manage service dollars or manage their personal finances to prevent institutionalization. This service includes a person or agency paying service providers after the member, guardian or other authorized representative authorizes payment to be made for services included in the member's approved self-directed supports plan. Financial management services providers, sometimes referred to as fiscal intermediaries or fiscal agents, are organizations or individuals that write checks to pay bills for personnel costs, tax withholding, worker's compensation, health insurance and other taxes and benefits appropriate for the specific provider consistent with the individual's self-directed supports plan and budget for services. Financial management services are purchased directly by the MCO and made available to the member/family to insure that appropriate compensation is paid to providers of services. It also includes the provision of assistance to members who are unable to manage their own personal funds to assist them to manage their personal resources. This service includes assistance to the member to effectively budget the member's personal funds to ensure sufficient resources are available for housing, board and other essential costs. This service includes paying bills authorized by the member or their guardian, keeping an account of disbursements and assisting the member to ensure that sufficient funds are available for needs. Excludes payments to court-appointed guardians or court-appointed protective payees if the court has directed them to perform any of these functions. Excludes payment for the cost of room and board.**

## Home Delivered Meals

**Home delivered meals are meals provided to recipients who are unable to prepare or obtain nourishing meals without assistance, including those who may be unable to manage a special diet recommended by their physician. Home delivered meal costs may include the costs associated with the purchase and planning of food, nutrition services, supplies, equipment, labor and transportation to deliver one or two meals a day. Home delivered meals may not constitute a "full nutritional regimen" (3 meals per day). This service does not include payment for meals at federally subsidized nutrition sites.**

## Housing Counseling

**Housing counseling is a service which provides assistance to a member when acquiring housing in the community, where ownership or rental of housing is separate from service provision. The purpose of housing counseling is to promote consumer choice and control of housing and access to housing that is affordable and promotes community inclusion. Housing counseling includes exploring both home ownership and rental options, and both individual and shared housing situations, including situations where the individual lives with his or her family. Services include counseling and assistance in identifying housing options, identifying financial resources and determining affordability, identifying preferences of location and type of housing, identifying accessibility and**

**modification needs, locating available housing, identifying and assisting in access to financing, explaining the rights and responsibilities of a tenant with disabilities, including how to ask for reasonable accommodations and modifications and how to file a complaint, and planning for ongoing management and maintenance. Housing counseling is not a one-time service and may be accessed by a member at any time. A qualified provider must be an agency or unit of an agency that provides housing counseling to people who need assistance with housing as a regular part of its mission or activities. Counseling must be provided by staff with specialized training and experience in housing issues. This service is excluded if it is otherwise provided free to the general public. This service may not be provided by an agency that also provides residential support services or support/service coordination to the member. Providers must have expertise in housing issues relevant to the participant and may not be a provider of residential support services to the participant.**

## Personal Emergency Response System (PERS)

**Personal emergency response system (PERS) provides a direct telephonic or other electronic communications link between someone living in the community and health professionals to secure immediate response and assistance in the event of a physical, emotional or environmental emergency. This service may include devices and services necessary for operation of PERS when otherwise not available. This service may also include installation, upkeep and maintenance of devices or systems as appropriate. Electronic devices must meet UL Standards. Telephonic devices must meet FCC regulations.**

## Prevocational Services

**Prevocational services are designed to create a path to integrated community based employment for which an individual is compensated at or above the minimum wage, but not less than the customary wage and level of benefits paid by the employer for the same or similar work performed by individuals without disabilities. Prevocational services involve the provision of learning and work experiences where a member can develop general, non-job-task-specific strengths and skills that contribute to employability in paid employment in integrated, community settings. Services are expected to occur over a defined period of time as determined by the member and his/her care planning team in the ongoing member-centered planning process. Services are expected to specifically involve strategies that enhance a member's employability in integrated, community settings.**

**Prevocational services should enable each member to attain the highest possible wage and work which is in the most integrated setting and matched to the member's interests, strengths, priorities, abilities, and capabilities. Services are intended to develop and teach general skills that lead to employment, including but not limited to: ability to communicate effectively with supervisors, coworkers and customers; generally accepted community workplace conduct and dress; ability to follow directions; ability to attend to tasks; workplace problem solving skills and strategies; general workplace safety and mobility training.**

**Prevocational services may be delivered in a variety of locations in the community and are not limited to fixed-site facilities. Some examples of community sites may be the library, job center, banks or any business.**

**Prevocational services, regardless of how and where they are delivered, are expected to help people make reasonable and continued progress toward participation in at least part-time, integrated employment. Prevocational services are not considered outcomes in and of themselves. Competitive employment and supported employment are considered successful outcomes of prevocational services.**

**Prevocational services may be provided to supplement, but may not duplicate services provided as part of an approved Individualized Plan for Employment (IPE) funded under the Rehabilitation Act of 1973, as amended, or under an approved Individualized Education Plan (IEP) under the Individuals with**

**Disabilities Education Act (IDEA).**

**The contracted provider of pre-vocational services must complete a six month progress report and service plan document for the IDT. The purpose is to ensure and document that prevocational services are assisting the member in progressing toward a goal of at least part-time, integrated employment. Timely completion of this document is required for the IDT to consider reauthorization of prevocational services.**

**Participation in prevocational services is not a pre-requisite for individual or small group supported employment services. Members who receive prevocational services may also receive educational, supported employment and/or day services. A member's care plan may include two or more types of non-residential services. However, different types of non-residential services may not be billed for the same period of time.**

**Members participating in prevocational services shall be compensated in accordance with applicable Federal and State laws and regulations, if those laws require compensation. The optimal outcome of the provision of prevocational services is permanent integrated employment at or above the minimum wage in the community.**

**Transportation may be provided between the member's place of residence and the site of the prevocational services or between prevocational service sites (in cases where the member receives prevocational services in more than one place) either as a component part of prevocational services or under specialized (community) transportation, but not both. All providers of transportation shall ensure that the provider qualifications for specialized (community) transportation are met. If the transportation is provided by the prevocational services provider, the cost of this transportation is included in the rate paid to the provider.**

**Personal care provided to a member during the receipt of prevocational services may be included in the reimbursement paid to the prevocational services provider, or may be covered and reimbursed under another waiver service so long as there is no duplication of payment.**

**Prevocational services may be provided to supplement, but may not duplicate services provided under supported employment or vocational futures planning and support services provided under the waiver.**

## Relocation Services

**Relocation services are services and essential items needed to establish a community living arrangement for persons who are relocating from an institution or who are moving from a family home to establish an independent living arrangement. This service includes person-specific services, supports or goods that will be put in place in preparation for the member's relocation to a safe, accessible and affordable community living arrangement. Services or items covered by this service may not be purchased more than 180 days prior to the date the member relocates to the new community living arrangement. Relocation services may include the purchase of necessary furniture, telephone(s), cooking/serving utensils, basic cleaning equipment, household supplies, bathroom and bedroom furnishings and kitchen appliances not otherwise included in a rental arrangement if applicable. Relocation services may include the payment of a security deposit, utility connection costs and telephone installation charges. This service includes payment for moving the member's personal belongings to the new community living arrangement and general cleaning and household organization services needed to prepare the selected community living arrangement for occupancy. Relocation services exclude home modifications necessary to address safety and accessibility in the member's living arrangement, which may be provided as the waiver service home modifications. Excludes housekeeping services provided after occupancy which are considered the waiver service supportive home care. Excludes the purchase of food, the payment of rent, or the purchase of leisure or recreational devices or services (e.g., television or video equipment, cable or satellite service, etc.). Providers must be reputable contractors or companies.**

## Residential Care Apartment Complexes

**Residential care apartment complexes (RCAC) are services provided in a homelike, community-based setting where 5 or more adults reside in their own living units that are separate and distinct from each other.**

**Persons who reside in the facility also receive the following services: supportive services (e.g., laundry, house cleaning), personal assistance (e.g., personal care), nursing services (e.g., wound care, medication management), and assistance in the event of an emergency (e.g., PERS**

**and response). Waiver funds may not be used to pay for the cost of room and board.**

## Respite Care Services

**Respite care services are services provided for a member on a short-term basis to ease the member's family or other primary caregiver(s) from daily stress and care demands. Respite care may be provided in an institution such as a certified Medicaid setting (hospital, nursing home) or other licensed facility. Respite care may also be provided in a residential facility such as a certified or licensed adult family home, licensed community-based residential facility, certified residential care apartment complex, in the member's own home or the home of a respite care provider.**

## Self-Directed Personal Care Services (SDS)

Self-directed personal care services are activities to assist a member with activities of daily living (ADLs), instrumental activities of daily living (IADLs) and housekeeping services directly related to the care of the member to maintain the member in his or her place of residence and to assist the member to access the community.

Services may include the following:

- a. ADLs;
- b. IADLs;
- c. Housekeeping services related to the care of the person;
- d. Accompanying and assisting the member to access the community for medical care, employment, recreation, shopping and other purposes, as long as the provision of assistance with ADLs and IADLs is required during such trips;
- e. Medically-oriented tasks delegated by a registered nurse pursuant to an agreement between the member and the interdisciplinary care team staff.

Services are provided by either an individual or agency selected by the member, pursuant to a physician's order and following a member-centered plan developed jointly by the member and interdisciplinary care team staff including a registered nurse. The plan shall specify delegated nursing tasks, if any. The member may use as a provider any individual who passes a background check including a legally responsible relative who qualifies under Article VIII.P.2., or an agency or individual that is not barred from participating in the Medicaid or Medicare program. The member-centered plan, including self-directed personal care and all other services received, is reviewed by the member and care team staff at least every six months or more often as needed. Visits by the consulting RN, who may be a member of the IDT or other nurse consultant, to the member's residence will occur at least once a year unless the member and RN agree on a more frequent visits or the RN determines that delegated nursing tasks need to be reviewed more often. The member and care team staff will determine any training needed by selected providers and how it will be obtained. The member shall be the common law employer of individual providers; if the member selects an agency, the member shall be a managing, co-employer of the worker and the agency shall hire any worker referred by the member who passes the background check and is, or can become competent in required tasks. Services may be provided both in the member's residence and outside the residence in other community settings.

**Members must have budget authority over an allocation of waiver funding through the SDS option to receive personal care through this service and must function themselves or through a representative as either the common law employer of an individual worker or the managing, co-employer of an agency-provided worker. Members without budget authority who are authorized by the MCO to receive personal care services would receive them through the State Plan personal care benefit instead.**

**Pursuant to Olmstead Letter No.3, Attachment 3-c, in order to assure continuity of care, services may include personal assistance retainer payments for up to 15 consecutive days where there is a reasonable probability that in their absence the member would not be able to retain a preferred home care worker because the worker would seek other employment, or if the worker is employed by an agency, would be reassigned and may not return to serving the member. Retainer payments may be made under the following medically-related and non-medically related circumstances as applicable to the member:**

**f. Medically-Related**

- i. Hospitalization;**
- ii. Nursing home or ICF-I/ID admission;**
- iii. Receipt of medical or rehabilitative care entailing at least an overnight absence; or**
- iv. Participation in a therapeutic rehabilitative program as defined in DHS 101.03(175).**

**There is no yearly limit on the number of medically-related episodes for which retainer payments may be made.**

**g. Non-Medically Related**

- i. Planned vacation entailing at least an overnight absence and unaccompanied by the worker;**
- ii. Visit to relatives or friends unaccompanied by the worker and entailing at least an overnight absence;**
- iii. Obtaining education, employment, or job, habilitative or self-advocacy training unaccompanied by the worker and entailing at least an overnight absence; or**
- iv. Recreational activities unaccompanied by the worker entailing at least an overnight absence.**

**Retainer payments may be made for no more than four (4) non-medically related episodes in a calendar year.**

**Members must have budget authority over an allocation of waiver funding through the SDS option to receive personal care through this**

**service and must function themselves or through a representative as either the common law employer of an individual worker or the managing, co-employer of an agency-provided worker. Members without budget authority who are authorized by the MCO to receive personal care services would receive them through the State Plan personal care benefit instead.**

## Supported Employment

**Supported employment services may be provided as individual employment support services or as small group employment support services.**

**Individual employment support services are the ongoing supports provided to members who, because of their disabilities, need intensive ongoing support to obtain and maintain an individual job in competitive, customized or self-employment in an integrated work setting in the general workforce. A member receiving this service shall be compensated at or above the minimum wage, but not less than the customary wage and level of benefits paid by the employer for the same or similar work performed by individuals without disabilities. The outcome of this service is sustained paid employment at or above minimum wage in an integrated setting in the general workforce, in a job that meets personal and career goals.**

**Small group employment support services are services and training activities provided in a regular business, industry or community setting for groups of two (2) to eight (8) workers with disabilities.**

**Examples include mobile crews and other business-based workgroups employing small groups of workers with disabilities in employment in the community. Small group employment support must be provided in a manner that promotes integration into the workplace and integration between members and people without disabilities in those workplaces. The outcome of this service is sustained paid employment and work experiences leading to further career development and individual integrated community-based employment for which a member is compensated at or above the minimum wage, but not less than the customary wage level of benefits paid by the employer for the same or similar work performed by individuals without disabilities.**

## Supportive Home Care

**Supportive home care (SHC) is the provision of services to directly assist people with daily living activities and personal needs and to assure adequate functioning and safety in their home and community. Services include:**

- a. Hands-on assistance with activities of daily living such as dressing/undressing, bathing, feeding, managing medications and treatments that are normally self-administered, toileting, assistance with ambulation (including the use of a walker, cane, etc.), carrying out professional therapeutic treatment plans, grooming such as care of hair, teeth or dentures. This may also include preparation and cleaning of areas used during provision of personal assistance such as the bathroom and kitchen.**
- b. Direct assistance with instrumental activities of daily living, as well as observation or cueing of the member to safely and appropriately complete activities of daily living and instrumental activities of daily living. Providing supervision necessary for member safety at home and in the community. This may include observation to assure appropriate self-administration of medications, assistance with bill paying and other aspects of money management, assistance with communication, arranging and using transportation and personal assistance at a job site and in non-employment related community activities.**
- c. Routine housekeeping and cleaning activities performed for a member consisting of tasks that take place on a daily, weekly or other regular basis. These may include: washing dishes, laundry, dusting, vacuuming, meal preparation, shopping and similar activities that do not involve hands-on care of the member.**
- d. Intermittent major household tasks that must be performed seasonally or in response to some natural or other periodic event for reasons of health and safety or the need to assure the member's continued community living. These may include: outdoor activities such as yard work and snow removal; indoor activities such as window washing; cleaning of attics and basements; cleaning of carpets, rugs and drapery; refrigerator/freezer defrosting; the necessary cleaning of vehicles, wheelchairs and other adaptive equipment and home modifications such as ramps. This also may include assistance with packing/unpacking and household cleaning/organizing when a member moves.**

## Training Services for Unpaid Caregivers

**Training services for unpaid caregivers is the provision of training services for individuals who provide uncompensated care, training, companionship, supervision, or other supports to members.**

**Training includes instruction about treatment regimens and other services included in the member's care plan, use of equipment specified in the service plan and guidance, as necessary, to safely maintain the member in the community. Training must be aimed at assisting the unpaid caregiver in meeting the needs of the member. All training for individuals who provide unpaid support to the member must be included in the member's care plan.**

**Training furnished to individuals who provide uncompensated care and support to the member must be directly related to their role in supporting the member in areas specified in the care plan.**

**This service includes, but is not limited to, on-line or in-person training, conferences, or resource materials on the specific disabilities, illnesses, conditions that affect the member for whom they care. The purpose of the training is for the caregiver to learn more about member's condition, what to expect, and how to provide the best care for someone with that specific condition. For example, training could be provided on effectively caring for a member with dementia.**

**Training includes the costs of registration and training fees associated with formal instruction in areas relevant to the needs identified in the member's care plan.**

**This service may not be provided in order to train paid caregivers. This service excludes payment for lodging and meal expenses incurred while attending a training event or conference. This service does not cover teaching self-advocacy which is covered under consumer education and training services.**

**This service must be provided by licensed, certified or accredited professionals who maintain current credentials in their field of practice. For example, training could be provided by registered nurses, licensed mental health professionals or licensed therapists.**

## Transportation

**Transportation (specialized transportation) - community transportation is the provision of transportation services or items that enable a member to gain access to waiver and other community services, activities and resources, as specified in the member's care plan. This service may consist of items such as tickets, fare cards, or other fare media or services where the common carrier, specialized medical vehicle or other provider directly conveys a member and her or his attendant, if any, to destinations. Whenever possible, family, neighbors, friends or community agencies who can provide this service without charge will be utilized.**

**Excludes transportation to receive non-emergency medical services which are covered under the Medicaid State Plan transportation benefit, or in the case of a self-directing member with budget authority to purchase such services, under the Other Transportation service. Excludes emergency (ambulance) medical transportation covered under the Medicaid State Plan service.**

**Transportation (specialized transportation - other transportation consists of transportation to receive non-emergency, Medicaid-covered medical services. This service may include items such as tickets, fare cards, or other fare media, reimbursement of mileage expenses, or payment for services where the provider directly conveys the member and her or his attendant, if any, by common carrier or specialized medical vehicle (SMV) as appropriate to and from receiving Medicaid-covered medical services.**

**Members eligible for this service must have decision-making authority over a budget for the purchase of such services. Such members are not limited to providers in the MCO's network (although the credentials of specialized medical vehicle providers must be verified by the MCO), do not require MCO prior authorization to purchase any transportation service from a qualified provider to any Medicaid coverable medical service if the member's budget is sufficient to pay the cost, and advanced scheduling of routine trips is not required if the member can obtain transport. Legally responsible relatives may be paid for providing this service if they meet the conditions under Article VIII.P.2.**

**Excludes ambulance transportation, which is available through the Medicaid State plan. Excludes non-emergency medical transportation when authorized by the MCO as a State Plan service for members without budget authority. Excludes non-medical transportation which is provided under the sub-service of Community Transportation; however the same ride may be used to provide**

**transport to medical appointments and community activities as long as there is not duplication of payment.**

## Vocational Futures Planning and Support

**Vocational futures planning and support (VFPS) is a person-centered, team-based comprehensive employment planning and support service that provides assistance for members to obtain, maintain or advance in employment or self-employment/microenterprise. The agency providing VFPS services will ensure that the following service strategies are available as needed to the member:**

- a. Development of an employment plan based on an individualized determination of strengths, needs and interests of the individual with a disability, the barriers to work, including an assistive technology prescreen or in-depth assessment, and identification of the assets a member brings to employment;**
- b. Work Incentive Benefits analysis and support;**
- c. Resource team coordination;**
- d. Career exploration and employment goal validation;**
- e. Job seeking support; and**

**f. Job follow-up and long-term support.**
