

Service Addendum: Home Health/Nursing Services

The provision of contracted, authorized, and provided services shall be in compliance with the provisions of this agreement, the service description and requirements of this section; and if applicable, state certification and licensing criteria.

Specifics

Providers are subject to the same qualifications as providers under the Medicaid State Plan as defined in Wisconsin State Statute 1915 (c) Home and Community-Based Waiver services waivers #0367.90 and #0368.90 required under § 46.281 (1) (c).

The services for which Lakeland Care, Inc. (LCI) is contracting with your organization are noted in the Rates and Service Codes chart attached to the LCI Service Provider Contract.

Timeliness and Access to Service

Providers shall make all reasonable efforts to initiate service provision at the date and time requested by the LCI IDT on behalf of the member. In the event that initiation of the service at the member's preferred time is not feasible, the provider will express such to the LCI IDT, who will arrange an alternative start date of services, or, if necessary, arrange to meet the member's needs by other means.

Definition

"Home health agency" means an organization which: **1.** primarily provides skilled nursing and other therapeutic services; **2.** has policies established by a professional group including at least one physician and at least one registered nurse to govern services, and provides for supervision of these services by a physician or a registered nurse; and **3.** maintains clinical records on all patients.

"Home health services" means the following items and services are furnished to an individual, who is under the care of a physician, physician assistant, or advanced practice nurse prescriber, by a home health agency, or by others under arrangements made by the home health agency, are under a plan for furnishing those items and services to the individual that is established and periodically reviewed by a physician, physician assistant, or advanced practice nurse prescriber and are, except as provided in number 6, provided on a visiting basis in a place of residence used as the individual's home: **1.** part-time or intermittent nursing care provided by or under the supervision of a registered professional nurse; **2.** physical or occupational therapy or speech-language pathology; **3.** medical social services under the direction of a physician; **4.** medical supplies, other than drugs and biologicals, and the use of medical appliances, while under such a plan; **5.** in the case of a home health agency which is affiliated or under common control with a hospital, medical services provided by an intern or resident-in-training of such hospital, under an approved teaching program of such hospital; and **6.** any of the foregoing items and services which are provided on an outpatient basis, under arrangements made by the home health agency, at a hospital or extended care facility, or at a rehabilitation center which meets such standards as may be prescribed by rule, and the furnishing of which involves the use of equipment of such a nature that the items and services cannot readily be made available to the individual in such place of residence, or which are furnished at such facility while the individual

is there to receive any such item or service, but not including transportation of the individual in connection with any such item or service.

“Skilled nursing services RN/LPN” is “professional nursing” as defined in Wisconsin’s Nurse Practice Act. Wis. Stats, Chapter 441. Nursing services are those medically necessary, skilled nursing services that may only be provided safely and effectively by an advanced practice nurse, a registered nurse or a licensed practical nurse working under the supervision of a registered nurse. The nursing services provided must be within the scope of the Wisconsin Nurse Practice Act, consistent with the Member Centered Plan, authorized by the MCO and are not otherwise available to the member under the Medicaid State Plan or for members enrolled in Medicare, services available through the federal Medicare program. However, the lack of coverage under the State Plan benefit or through Medicare does not preclude coverage of skilled nursing as a waiver service if services are within the scope of the Wisconsin Nurse Practice Act.

Under the Wisconsin Nurse Practice Act, professional nursing includes any of the following: professional skilled nursing means the observation or care of the ill, injured or infirm, or for the maintenance of health or prevention of illness that requires substantial nursing skill, knowledge or training, or application of nursing principles based on biological, physical and social sciences. Professional skilled nursing includes any of the following:

- a. The observation and recording of symptoms and reactions;
- b. The execution of procedures and techniques in the treatment of the sick under the general or special supervision or direction of a physician, podiatrist licensed under Wis. Stats. ch. 448, dentist licensed under Wis. Stats. ch. 447, or optometrist licensed under Wis. Stats. 449, or under an order of a person who is licensed to practice medicine, podiatry, dentistry or optometry in another state if the person making the order prepared the order after examining the patient in that other state and directs that the order be carried out in this state;
- c. The execution of general nursing procedures and techniques; or
- d. The supervision of a patient and the supervision and direction of licensed practical nurses and less skilled assistants in accordance with Wis. Stats 441.

Nursing services may include periodic assessment of the member's medical condition when the condition requires a skilled nurse to identify and evaluate the need for medical intervention or to monitor and/or modify the medical treatment services provided by non-professional care providers. Services may also include regular, ongoing monitoring of a member's fragile or complex medical condition, as well as the monitoring of a member with a history of non-adherence with medication or other medical treatment needs. Delegation of nursing tasks to less skilled personnel shall be in accordance with Wis. Stats. ch. 441 and Wis. Admin. Code ch. N.6. and the Guidelines for Registered Nurse Delegation to Unlicensed Assistive Personnel (Wisconsin Nurses Association). These services are provided when nursing services identified as needed in a plan of care and furnished under the approved State plan limits are exhausted or when the nursing services are not covered under the Medicaid State Plan. For members enrolled in Medicare, excludes services available through the Medicare program except for payment of Medicare cost share. RNs and LPNs must comply with Wis. Stats. Chapter 441.

Standards, Training, and Competency

Providers of services shall meet the standards of this agreement; *and if applicable*, agrees to retain licensing in good standing during contract period.

Provider shall ensure staff providing care to members are adequately trained and proficient in the skills they are providing and in the needs of the member(s) receiving the services.

Training of staff providing services shall include:

1. Provider agency recording and reporting requirements for documentation, critical incident reporting, and other information and procedures necessary for the staff to ensure the health and safety of member(s) receiving supports
2. Training on the needs of the target group for the member(s) served under this agreement
3. Training on the provision of the services being provided
4. Training on the needs, strengths, and preferences of the individual(s) being served
5. Training on rights and confidentiality of individuals supported
6. Information and provider procedure for adherence to the LCI policies below:
 - a. Incident Management System
 - b. Restraint and Seclusion Policy and Procedure
 - c. Communication Expectations
 - d. Unplanned use of Restrictive Measure
 - e. Confidentiality

Provider shall ensure competency of individual employees performing services to the LCI members. Competency shall include assurance of the general skills and abilities necessary to perform assigned tasks.

Staff to Member Ratio

Provider's staff to member ratio shall be in accordance with state licensure and certification requirements as expressed by ordinance, state and federal rules and regulations applicable to the services covered by this contract. Provider shall be adequately staffed to meet the needs of members as defined in their assessments and individual service plans.

Staffing Assignment and Turnover

The provision of successful services is attributable in large part to the strength of the relationship between a member and the staff directly providing the service. Given this contributory factor, provider agrees to make every effort to match and retain direct care staff under this agreement in a manner that optimizes consistency.

In order to establish and preserve this relationship, providers must take specific precautions to establish and monitor these services. Providers must have a process in place for:

1. Members to provide feedback on their experience with the employees performing these tasks and respond when appropriate.
2. Written information indicating who within the organization to contact with concerns, or questions related to the provision of services or direct care staff
3. Provider will forward documentation and/or feedback to the Interdisciplinary Team (IDT) staff to allow members to express concerns to individuals other than the individual who performs the task

Changes in staff assignments to specific members and within the organization are at the discretion of the provider. Provider agrees to take member requests for specific staff into consideration when assigning or reassigning staff to members and will notify the LCI IDT staff in their reporting of any changes to staff providing services.

Collaboration and Coordination of Care

Through the use of the Resource Allocation Decision method (RAD), the LCI IDT staff shall assess the member's needs and outcomes to determine the amount of services to be authorized. The LCI IDT staff shall exchange pertinent information with the provider at the time the referral is made to assure all health and safety needs are provided during the services. This information exchange shall include the assessed needs and amount of authorized units as it relates to services.

All aspects of service shall be discussed between the LCI IDT staff, member or legal representative, and provider to ensure proper collaboration.

Agency Communication Responsibilities

Providers shall notify the Lakeland Care Provider Compliance Specialist of any visits by their licensing or other regulatory entities within 3 days from the conclusion of the visit.

- If a citation is issued, the provider will supply LCI with copy of applicable plan of correction submitted to the DQA concurrent with submitting to licensing.
 - Plan of correction must demonstrate a systematic change in practices that is reasonably expected to result in an ongoing correction of identified violations.
 - LCI reserves the right to require additional plan(s) of correction from providers as it adheres to this agreement and/or applicable licensing standards. Providers must update the Provider Compliance Specialist and Quality Specialist when the provider appeals the Statement of Deficiency (SOD) from DQA.

Provider shall ensure a mechanism for recording and reporting to the IDT staff and other appropriate agencies incidents including:

- a. Changes in:
 - Condition (medical, behavioral, mental)
 - Medications, treatments, or MD order
 - Falls (with or without injury)
 - Urgent Care, Emergency Room or Hospitalization
 - Death: anticipated or unexpected
 - Any other circumstances warranting the completion of an agency incident or event report
 - Unplanned use of restrictive measure
- b. Communication/Coordination regarding:
 - Medical Equipment or Supplies
 - Plan of Care development and reevaluation

- Transition difficulty, discharge planning
- Ongoing Care Management

Note: Staff will first follow their own established in-house protocol. Staff will then inform the IDT of *any member circumstance that would warrant family or physician notification* that includes, but is not limited to the above circumstances.

Documentation

Providers shall comply with documentation as required by this agreement; *and if applicable*, state licensure and certification requirements as expressed by ordinance, state and federal rules and regulations applicable to the services covered by this contract.

Each LCI member shall have a developed plan of care specific to their needs which address each area of service being provided. A copy of this care plan shall be supplied to LCI IDT staff.

At any time, the IDT staff may request:

- A written report to enhance the coordination and/or quality of care; which includes:
 - Changes in members' activities
 - List of supportive tasks provided
 - Ongoing concerns specific to the member
- Additional documentation of the services provided

Billable Units

Provider service rates will incorporate all administrative and business functions related to the provision of service. Contracted rates include the provision of administrative functions necessary for services and are not billable beyond units provided to each authorized member.

Providers should reference the Rates and Service Codes chart of the agreement for contract units and rates.

Providers should use increments as listed in the rates and service codes chart to bill LCI up to the authorized number of units for the member. Providers can only bill for services rendered to the member. The provider will refund LCI the total amount of any/all units billed without services rendered to the LCI member.

Providers are required to provide for all identified care needs during the provision of services and are specifically prohibited from billing fraudulently for additional services during the provision of these services.

Family Care services administered by LCI are funded by state and federal tax dollars through the Medical Assistance program. As a publicly-funded system, LCI strives to maintain the integrity of the program by ensuring that all services are billed as authorized by LCI, and as rendered to members. LCI ensures this protection, by regularly conducting random reviews of claims submitted by its contracted providers. LCI reserves the right to request verification documentation from providers. This could include but is not limited to: providers' case notes, files, documentation and records.

Additional Considerations

- LCI requires a 14 day notice prior to termination of Home Health and Skilled Nursing services by a provider to any LCI member, unless the reason for termination is successful completion of service or service is no longer needed by member.
- Services will be provided as identified and authorized by the LCI IDT staff.
- Providers may not limit or deny any LCI member services due to dissatisfaction with their LCI contracted rate.
- LCI pre-authorizes all of its services. If provider bills for more units than authorized without prior authorization, these services may be denied.
- In the case that a LCI member cancels service, the provider must contact the LCI IDT staff. Services cancelled will not necessarily be rescheduled and should not be assumed by the provider.

Additional Contract Expectations

- Provider must adhere to Medicaid guidelines for billing.
- Provider must adhere to Medicaid guidelines for personal care and travel time.
- LCI reserves the right to access agency records for verification of billable units.
